

An aerial photograph of a Bestway inflatable pool set up on a green lawn. Several people are swimming in the pool, which is filled with blue water. A yellow and white beach ball floats in the center. To the right of the pool, a large black inflatable ring with 'RAPID RIDER' written on it in red and green letters sits on the grass. Next to it is a smaller, white inflatable ring. In the background, there are two white lounge chairs, a blue cooler, and a pink inflatable ring. The Bestway logo is visible in the top left corner of the pool.

GLOBAL *factories*

Bestway® is poised for sustainable, global growth. From wholly owning its 5 factories - 3 in mainland China and 2 in Vietnam - to actively reducing and reusing waste and focusing on production efficiency, Bestway's strategic focus on an end-to-end manufacturing and distribution process results in faster delivery, superior product quality and the highest levels of customer satisfaction.

With the addition of its Vietnam manufacturing facilities, Bestway is primed for exponential growth while providing tariff savings and manufacturing redundancy while enhancing global shipping and supply chain support for many years to come.

A family of four is enjoying a sunny day in a blue Bestway Steel Pro above-ground pool. The mother, on the left, is wearing a green swimsuit and smiling. The father, on the right, is shirtless and also smiling. Two young children, a boy and a girl, are in the center of the pool, reaching up towards a large yellow and white beach ball that is suspended in the air. The pool is set on a green lawn with a dense line of trees in the background. The pool's frame is white, and the blue liner has the 'Bestway STEEL PRO' logo printed on it.

RAKER A100 ROBOTIC POOL VACUUM

AGP ACCESSORIES

MAIN FEATURES:

- Recommended for flat-bottom above ground pools up to 18 m² (194 ft.²) in total area
- Recommended pool sizes:
 - Round - Up to 4.88 m (16') in diameter
 - Rectangular - Up to 5.49 m (18') in length
 - Oval - Up to 5.49 m (18') in length
- Not compatible with steel wall pools
- Automatic pool cleaner propels itself along the bottom of the pool to collect debris
- Built-in rechargeable battery runs for approximately 30 min. & recharges in 2.5-4.5 hours
- Cordless design for full range motion; eliminates tangled cords
- Built-in sensors activate the device when fully submerged in water and deactivate it when out of the water for motor protection
- Directional jet system creates optimal movability and pivots easily when encountering walls or obstacles
- Top handles for quick direction changes & easy retrieval from the water
- Large 1.5 L (0.4 gal.) easy-to-clean debris compartment
- Quick-click buckle clasps for easy assembly and maintenance
- Full color box
- 1 Ea., 3.6 kg (7.9 lbs)

PRODUCT TECHNOLOGY

THE ORIGINAL PREMIUM PORTABLE SPA™

As a leading manufacturer of the inflatable, portable hot tub, Lay-Z-Spa® has become an industry staple that consumers know and trust. From technological innovations to style, Lay-Z-Spa leads the market. High-functioning components and durability are the main priorities of the hot tub line, providing consumers with products they can depend on.

FREEZE SHIELD® TECHNOLOGY COMFORT IN THE COLD

Freeze Shield® successfully equips the hot tub for year-round, all-weather use. Designed with innovative winterizing technology, these hot tubs automatically increase water circulation and heating when temperatures are low to prevent the inner parts from damage.

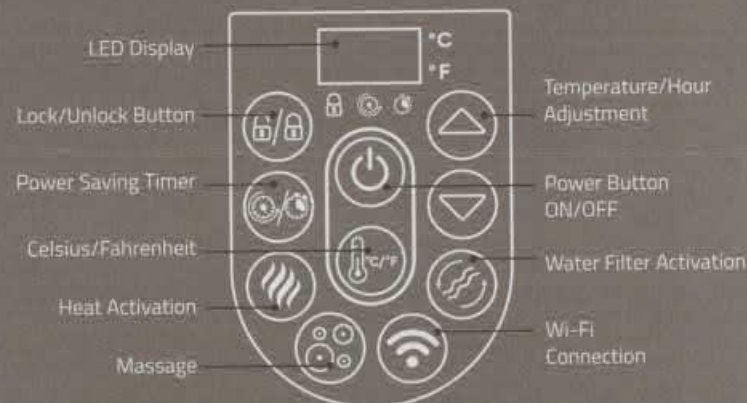

INCREASED ENERGY EFFICIENCY

HIGH heat retention, LOW Electricity Use
The EnergySense® thermal covers and liners retain more heat than PVC material alone. This allows the hot tub to heat up faster and stay hotter longer, leading to as much as 40-60% higher energy-efficiency.

DIGITAL CONTROL PANEL

MASSAGE TECHNOLOGY

AIRJET™ SYSTEM

Soothe your body and relax your mind with the touch of a button! The Airjets work by releasing air into the water, surrounding you with a calming bubble massage.

HYDROJET™ SYSTEM

Enjoy a deeper massage with the Hydrojet System! Along with the bubble massage, there are a few adjustable nozzles next to the pump that release a more targeted massage.

HYDROJET PRO™ SYSTEM

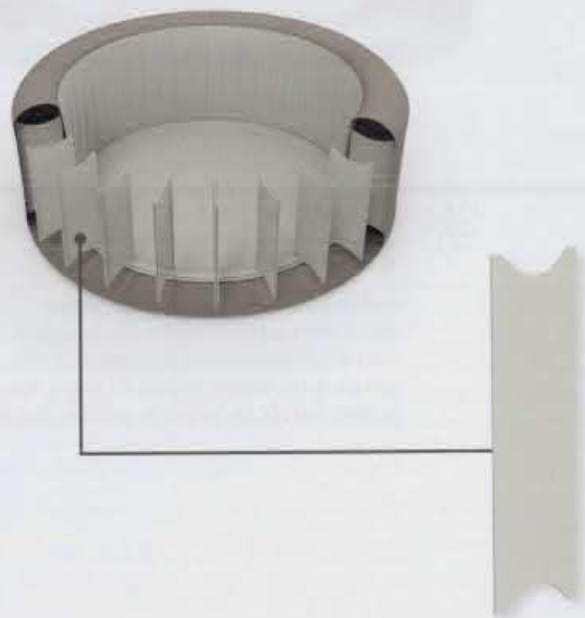

Hydrojet Pro is the best of both worlds! Adjustable nozzles along the inside walls of the hot tub release soothing jetstreams of water, while jets along the bottom release a calming flow of air bubbles specifically targeting your feet and back.

STANDARD SERIES

PVC CONSTRUCTION

ESSENTIAL STRENGTH AND COMFORT

The internal construction of these hot tubs is designed to offer superior structural stability while still maintaining a comfortable surface.

MAX TEMP 40°C (104°F)

LAY-Z-SPA.
HELSINKI

FORTIFIBER™ MATERIAL DROP STITCH

The FortiFiber™ walls are constructed using thousands of fine threads to securely connect the internal walls, seal in air, and provide lightweight rigidity that is similar to a hard-sided hot tub.

AIRJET™ MASSAGE SYSTEM

Soothe your body and relax your mind with the touch of a button! The Airjets work by releasing warm air into the water, surrounding you with a calming bubble massage.

FREEZE SHIELD® TECHNOLOGY

These hot tubs have built-in sensors to keep the water temperature above freezing, preventing inner parts from damage.

BESTWAY CONNECT APP

This innovation makes the Lay-Z-Spa compatible with smart devices. The app lets users set their hot tub to the perfect temperature. They can also activate the Power-Saving Timer, the water filter, and the Airjet massage system with the touch of a button!

SPECIFICATIONS

ITEM NUMBER	60025
WATER CAPACITY	1,123 L (297 GAL.)

INDOOR AIR MATTRESSES

Bestway® is committed to making innovative, quality products for all walks of life. That commitment means that our indoor air mattresses are constructed with super soft sleeping surfaces for a great night's rest. Plus, they are easy to inflate and deflate! They're ideal for guests, work wonderfully for spare rooms, game rooms and anywhere you need extra sleeping space.

WATERSPORTS

The wide range of kayaks, rafts, sport boats and tubes offered by Bestway® means every water explorer can find exactly what they're looking for.

From different sizes to materials, these items are perfect for beginners and advanced adventurers.

Angler Elite™ X1 Fishing Kayak Set	p. 92
Arrow Elite™ X1 Kayak Set	p. 94
Kondor Elite™ 500 Raft	p.100
Beacon Elite™ Sport Boat Set	p.104
Rapid Rider™ Single Tube	p. 108

ENHANCED MATERIALS

INFLATA-SHIELD™ INFLATA-SHIELD PRO™

- Enhances puncture-resistance
- Increases tensile stretch-resistance for rigidity and speed when paddling
- Improves pressure retention, maximizing stability and minimizing air loss

FORTIFIBER™ DROP STITCH

- Base layer and internal threads create an exceptionally rigid, strong and stable surface

FORTIFIBER™ AIRE:

- Tightly woven base layer reduces weight by 20%*
(*compared to standard drop stitch)

TRITECH® 3-PLY CONSTRUCTION

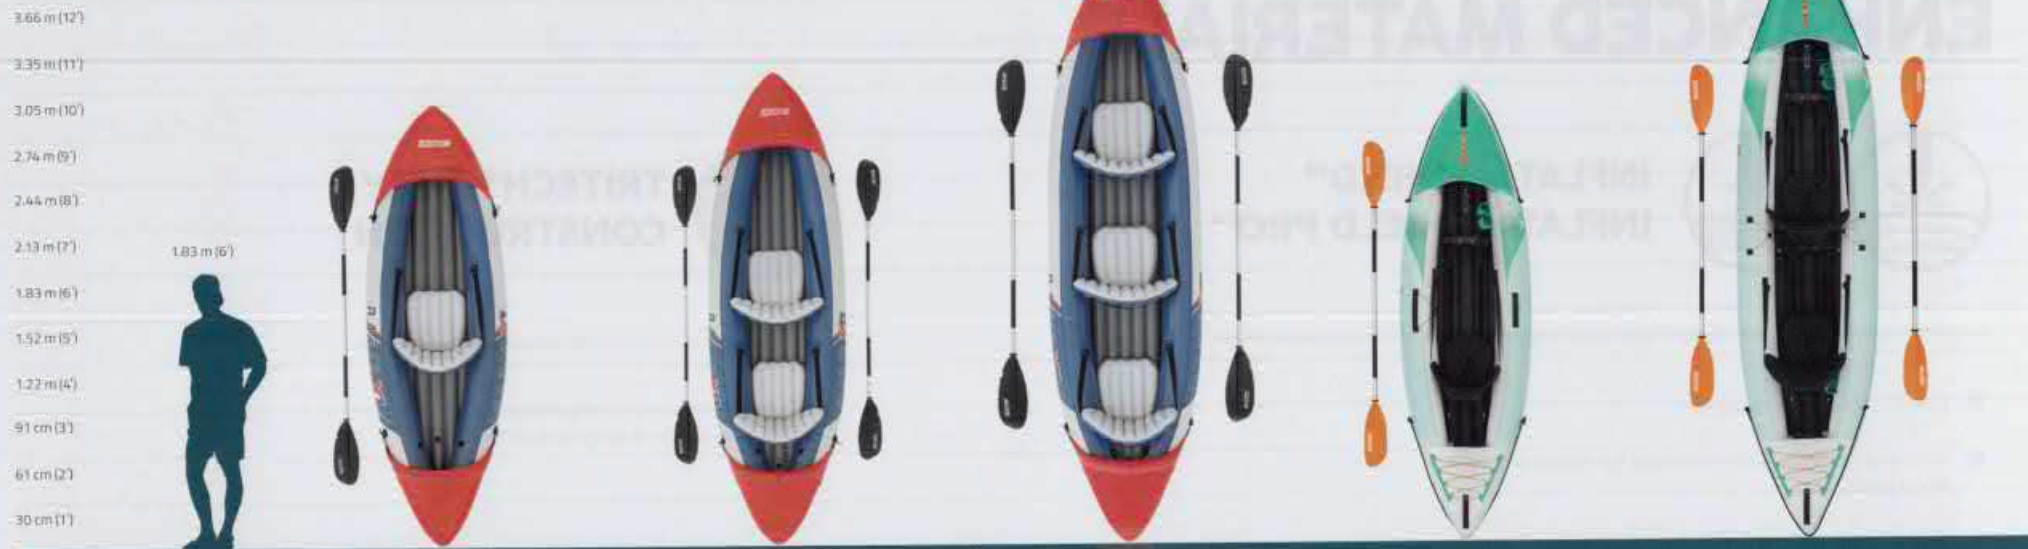

- Triple-layer material is engineered for durability, abrasion resistance and puncture resistance

PREMIUM RIPSTOP COVER

- Created with reinforced thread that resists tearing
- 2.5X stronger than standard fabric
